

Osprey Wilds

Environmental Learning Center

Formerly Audubon Center of the North Woods

Academic Support Center

FOR STUDENTS IN GRADES 6TH - 12TH

As an accredited environmental learning center, our education staff will be providing academic support to students at our campus in Sandstone. We offer a flexible schedule for families where students can be dropped off in the morning from 7 - 8 AM and picked up from 3 - 5 PM. From 3 - 5 PM, students will have the opportunity to work on homework and participate in our after school activities at no additional cost.

During the day, students will have reliable high-speed internet access to work on their school coursework. Our academic coaches will be there for homework assistance and to lead short activities throughout the day. Students should bring their class schedule, homework, laptop, and anything else needed for their classes.
