

WOLVES & WILDLIFE TRACKING

JANUARY INTERIM COURSE | January 3-17, 2027

The gray wolf has long excited the human imagination. Minnesota, with approximately 2,900 wolves, is home to the largest and only continuous population of wolves in the lower 48 states. As a leader in wolf research, Minnesota is looked upon by other states as well as countries around the world as an example of how wolves and humans can co-exist with research and management.

Coursework Includes:

- Wolf Ecology and Observation of Captive Wolves
- Predator & Prey Relationships
- Tracking & Sign Reading
- Aerial Radio Telemetry Flights
- Habitat Analysis
- Winter Plant ID
- Winter Ecology
- Winter First Aid and Safety
- XC Skiing & Snowshoeing
- Map & Compass Skills

Course Visits Include:

- Osprey Wilds Environmental Learning Center*
- Sandstone Wildlife Management Area*
- Minnesota's North Shore of Lake Superior*
- Boundary Waters Canoe Area Wildness*
